# Agenda

- **Overview**
- **Tools & Technologies**
- **Limitations**
- **Demo**

# Overview

- **The domain is creating a blog application, user can see the list of entries in the home, show more information about specific entry.**
- **Admin of the system can post new entry, edit or delete current entry.**
- **Provide a form for user to contact with admin. This is handle by JMS and JavaMail.**

# Tools & Technologies

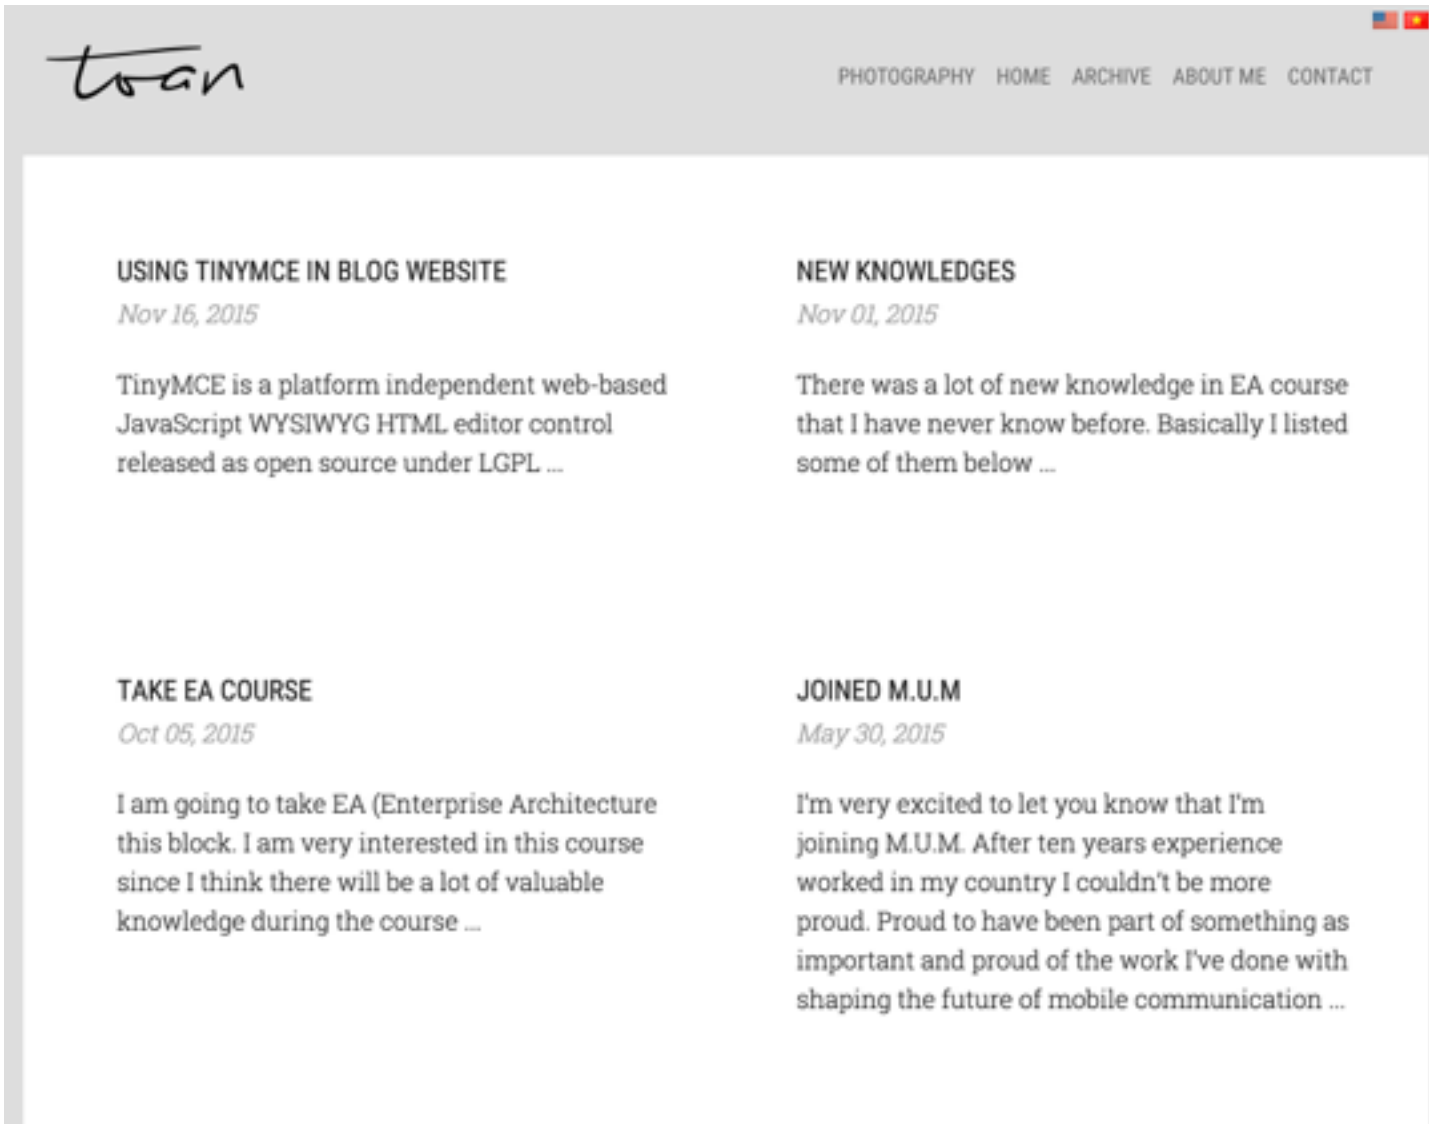

- Java
- JQuery
- Spring MVC
  - JSP (Titles, Validation)
  - JSTL / EL
  - HTML, CSS, JQuery
  - Internationalization
- JPA / Hibernate
- Rest / Ajax
- HornetQ JMS
- Git / GitHub
- MySQL

# Limitations

- Only admin can post a entry
- No registration page for user
- No comment system on the specific blog
- No unit testing available.

# Demo

**Thank You!**
